

# oona 22 - New age of contactless checkout

## The Android-Powered Self-Service Kiosk

The new oona 22 seamlessly integrates into any self-service or self-checkout system - from ordering terminals and supermarket checkouts to ticketing machines and many more - enabling contactless payment and checkout directly on the screen.

Our next-generation hardware platform delivers a significant performance leap with three key features:

- **Contactless Payment & Checkout Directly on the Screen:** Frictionless, convenient, and intuitive payment processes with high performance front facing NFC integrated centrally in the display
- **Enterprise-Grade Durability:** Reinforced glass design for demanding environments, compatible with standard cleaning agents, and anti-glare treatment
- **Versatile Mounting Options:** Flexible installation with countertop or floor stands using standardized VESA 75/100 mounts or custom furniture/wall integration
